# ASHMICO New Factory

# Al Khobar Corniche

# MODON PROJECT

# Electrical and Mechanical Works

---

## 1. POWER CABLE LAYING, SPLICING AND TERMINATION

**BISAN UNITED.** Is an independent, public organization that exist solely for the purpose of providing expert quality for laying, Termination, Power cable for 13.8KV & 33KV along with a qualified and certified comprehensive range of cable jointing the solution.

We undertake below listed type termination with our experienced staff of certified SEC.

- ❓ Elastic mold type of termination for 13.8KV
- ❓ Heat shrinkable Raychem type termination for 13.8KV
- ❓ 3M cold shrinkable type termination

## 2. Cable Testing

- ❓ We are doing all test required for power cable upto (hipot) test,
- ❓ We are using DC Hipot & VLF Hipot

## 3. CABLE FAULT

We are using the cable fault locator to deduct the faulty cables.

## 4. INSTALLATION OF ELECTRICAL EQUIPMENTS

**BISAN UNITED** Company is well experienced in installing the following equipment's for various completed projects;

# Switch Gears Field services

## 6. Switch Gears field services:

With the Electrical network, relays play a vital role towards protecting system from its fault. With the Invent of this new technology relays which has made the Electrical network, with The recent technology of which has make the system more reliable we have corporate a Highly skilled and trained Engineer's for testing this protective device.

With the Experience in executing present technology relays our Engineers are being trained

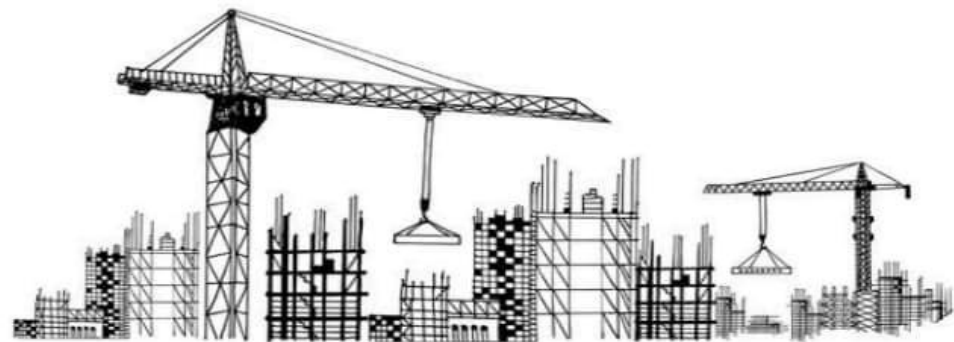

With the independent manufacturer relays and being able to carry out all types of SIEMENS, ABB, WESTINGHOUSE, GE, CEE etc. relays and we are able to undertake the below;

- ❑ Installation of new Relays
- ❑ retrofitting and replacement of Old Electromagnetic type relays by new

## 7. Testing and Commissioning;

- ❑ over current relays
- ❑ Over/ under voltage relays
- ❑ Earth Fault Relay
- ❑ Differential Protection relays
- ❑ Distance protection relay
- ❑ Bus/Feeder Protection relays
- ❑ Negative phase sequence relays
- ❑ Reverse power relays
